COMPLIMENTARY POC TO BOOST YOUR ORACLE PUBLIC CLOUD ADOPTION.

Design   **Simulate**   **Test**   **Road Map**

Design, Simulate, Test and Road map your
Oracle Cloud solution in just 4 weeks!

Oracle EBS Public Cloud Transition – Complimentary Proof-of-Concept (POC)

Boost your Transitioning Process to the Oracle Public Cloud

The journey to Oracle Cloud can take various routes. We at Infosenseglobal (ISG - www.infosenseglobal.com) can support you and your customers through this journey with our simple and comprehensive global business solutions.

Based on business and technical successes of implementing new enhancements in various verticals of Oracle Cloud Services, ISG has decided to offer a Proof-of-Concept (POC) platform for company's partners, customers, and prospects. This POC will be a **complimentary offering** to help organizations transition their on-premise footprint to the Oracle Public Cloud.

About ISG's Oracle Public Cloud POC

Principally, Oracle provides you a platform foundation with a standardized basic capability to explore cloud features and tools for developing enterprise solutions. When it comes to validating performance, functionalities, and scalability of your organization specific platform or solution, ISG facilitates the real-time solution for testing and evaluation through its Oracle Cloud platform.

We will boost your transformation to the cloud with Oracle Public Cloud in just 4 weeks. During these 4 weeks, we will design, simulate, test and prove the Oracle cloud footprint for your platform. We will perform a POC that can help and provide you guidance in the cloud adoption journey.

POC Benefits

- ✓ POC will help in your cloud adoption journey.
- ✓ Will work closely with Oracle teams to deliver the right solution and ensure you remain in compliance.
- ✓ Minimal or no support required from your IT teams to avoid disruption of their day-to-day duties.
- ✓ 100% project completion commitment without any risks.

Added Advantages of the POC

- ✓ The POC is 100% complimentary and you owe no fees of whatsoever to Infosense.
- ✓ We will validate existing integrations in place for your Oracle EBS footprint.
- ✓ Help with global multi-site performance and 3rd party extensions.
- ✓ Assist in licensing review supporting the cloud adoption.
- ✓ Provide a strong backup strategy, cut over strategy and a Disaster Recovery (DR) plan.

Why Infosenseglobal?

- • Deep experience in delivering advanced technology solutions since 2006.
- • Global EBS Implementation Experience.
- • Oracle Gold Partner - specializes in EBS, BI, CRM, and Managed Services.
- • Reduces project risks, time and cost by doing it right and within budget.
